### Bits and Stuff

4 Base plates

2 Telescopic stands

Various lengths 48mm pipe

There is a good stock of TRS, Splitters, Jumps, Socapex etc in house, I won't bore you with numbers. We also carry a good quantity of boom arms, spare hook clamps and odd things you need but can't quite recall the name of.

Some effects are available at an extra cost. Smoke, Haze, Animator Wheels, Ripple Tank, Projectors etc. If you need any of that sort of thing please call me well in advance of the show.

There is a stock of gobos and holders in house which you are welcome to use and the same goes for our stock colour. Any colour etc bought in to order will be charged at cost only.

N.B. Due to the Dunamais staff being nice guys and helping people out, all the gear isn't here all the time. Please contact Nick well in advance of your show to be sure we can give you all you want.
