Stands	2		
Haze- ADJ Entour Phase	2	Manual	
Smoke- Stairville Vertifog	4	Manual	

Please Note Well

We actively discourage the use of tungsten luminaires.

While we maintain the existing stock we no longer carry a full stock of replacement lamps.

All units on the spec are available to use on request in advance but any tungsten lamps that blow during fit up or production will be charged back to the promoter.

Any and all toured lighting and other electrical equipment must carry a current PAT test or be subjected to one prior to rigging/use any units which fail will not be rigged/used.

For pre-rigs please contact Nick to discuss, while we will attempt to be as helpful as possible it is not a given that we will have time or staff to do this. Extra costs may be incurred so please do make that call!

Nick 0872358067
